

Law's Drug Store Under New Management

As is mentioned elsewhere in this paper, a fact that is known to a great number of his former customers and friends, Mr. George Law, the sometimes genial druggist who has served this area very ably during the past nineteen years, has decided to pack up and move to Calgary. We all agree he has a rest coming but he'll be missed in more ways than one.

During his term here he served as Lions president, was worshipful master of King Hiram Lodge, as a "hot dog king" at local sports days, as a golfer mostly in the serving department, as a curler (?), and was a long-time member of the local school board.

Mr. L. O. (Len) Slipp is fairly well known in these parts as a curler and golfer and has been seen in many tournaments along the way. Born in Trochu, Len graduated from the University of Alberta in 1948. He spent five years as a pilot overseas. Following this he worked in Calgary, Brooks and for the past six years has been with Maybank's Drug Store in Olds. He is married and has a family of two boys.

Caution: Do not allow your animals to go without water and feed too long. It is better to keep them alive on contaminated water and feed than to let them die of thirst and hunger.

Water and feed become contaminated if they are exposed to fallout. Water from a covered well, tank or cistern, or from a freely running spring should be safe. If possible, use water from a covered well.

Fond water is less safe but, if necessary, it can be used a few days after fallout has occurred.

To prevent contamination from fallout, do not add water to tanks or cisterns, except water from a properly protected well or spring, until the water originally present is used.

Harmattan News

(From Our Own Correspondent)

The men of the Harmattan district turned out in full force for a week before Christmas to completely line the hall with wall-board and made several other changes. The hall now has a vastly changed appearance and really looks nice. Credit is given to the Harmattan Women's Club, who through their efforts have raised the money for this work, and also thanks to the men who so willingly gave of their time and labor.

Constable and Mrs. David Turnbull of Virden, Man., who were recently married in Carberry, Man. were Christmas holiday guests of the Bill Turnbulls. Robert and Leonard Turnbull were also home for the holidays.

Mr. and Mrs. Bill Crawford and family were Christmas guests of Mrs. Clara Armstrong.

Miss Sharon Goodman of Calgary was a New Year visitor of Miss Marilyn Knights.

Mr. and Mrs. Mel Smith entertained on New Year's Eve with a house party.

Mr. and Mrs. Howard Moore and family spent New Year's Day with the Trevor Morgans at Sundre.

Mr. and Mrs. August Krebs are enjoying a vacation at the west coast. They spent Christmas at the home of their son Eddie, in Vancouver, and New Year's at the home of their daughter Ethel, in Washington. Lester Krebs phoned greetings to them all on New Year's Day.

Congratulations also go out to Mr. and Mrs. Paul Baum (Leslie) (Continued On Back Page)

Due to the balmy weather, the hockey teams in the Chinook League that are not pleased with artificial ice have been sitting around on their hands. However, nothing lasts forever, and it is hoped that the local entry will soon have a little more time to practice and then we'll all get in on the fun.

In case you haven't received a schedule yet, here is the way they have the games lined up insofar as the Ramblers are concerned:

Thursday, January 9 — Didsbury at Red Deer (4 pts.)

Tuesday, January 14 — Didsbury at Olds

Thursday, January 16 — Didsbury at Trochu

Tuesday, January 21 — Didsbury at Carstairs

Thursday, February 6 — Didsbury at Trochu

Among the holiday visitors at Cremona were Mr. and Mrs. J. Lane and family, Mr. and Mrs. Bob Simpson and Mr. and Mrs. J. Bird.

A pioneer of the early 1900's passed away in the Senior Citizens' Home in Didsbury on Dec. 26th.

Mr. Malcolm Edie, better known to his friends as Uncle, was laid to rest in Cremona cemetery on Dec. 30th. He was a veteran of the 1st Great War and was honored by a Legion ceremony.

Anyone desiring to honor his memory are asked to donate either a flower or a small Citizen's Home or the Salvation Army. Mr. Edie was 81.

Miss Margaret Grant spent several days at Christmas with her sister, Mrs. J. Raftery.

The sympathy of the district is extended to the Walker families, in the loss of their mother last week. Mrs. Walker was seriously injured in a car accident a month ago, suffering multiple fractures and concussion and was hospitalized until her death.

The yearly reunion dance at Cremona on Dec. 26th was, as usual, a success. Among those present were the housewives, Mr. and Mrs. K. Doaks (Kearney Ray). The bride is the daughter of Mr. and Mrs. J. Ray. They will reside in Victoria.

Mrs. E. R. Wigg won a ten dollar door prize at Walter Valley at the New Year's dance.

Yes, since radioactive materials can accumulate in milk, which will be a very critical product during an emergency, you should make a special effort to protect cows from fallout.

Give cows preferred shelter and clean feed and water. If you can, milk them before fallout occurs. You may not be able to do so for a day or two afterwards. Reduce amounts of water and concentrated feed and, in the meantime, put cows and calves together; the calves can suckle and reduce the discomfort of full udders.

Notes From D.A.

By HOWARD J. FULCHER

In Alberta we have two kinds of peat, sedge peat and moss peat. The grass-like sedges often grow in low, poorly drained areas, frequently with some inches of water, when they die, the plants fall to the ground and over the years a partially decomposed material that is known as sedge peat develops. This material usually breaks down with hand crushing and is a useful amendment for many of our garden soils. It lightens the heavy soils by separating the particles of clay and improves the sandy soil by increasing their water holding capacity. Alone, however, it presents problems.

Moss peat, soft and spongy and very resistant to decomposition. One may dig a foot or two beneath the surface and still find little sign of decay even though the material has been there for years. This is one reason for the moss peats being less suited to agriculture than the sedge peats, although neither ranks high for crop production. Moss peats are also lower in plant nutrient content.

Peats are problem soils and of very doubtful value for grain production. If peat soils are to be used for cereals, oats for greenfeed would be first choice, and an early maturing barley stands the best chance if you hope to harvest grain. Frost is much more common in the peat areas than on a mineral soil even a quarter mile away.

The best use of peat soils is for pasture and hay production. Timothy, alfalfa and clover are among those suggested. Peats are likely to respond to fertilizer but because of their wide variability no general recommendations can be made. Two or three different kinds of fertilizer might be tried, 27-14-0 and 10-32-10 among them. 0

TREATING FOR WEED CONTROL

A survey made by the Weeds Commission of the Manitoba department of agriculture, indicates that during the past season a total of 15,478,000 acres of crops in the prairie provinces were treated with a herbicide for weed control.

Of this amount 4,600,000 acres were in Alberta. This represents about 30 per cent of the province's crop acreage.

He explained that he meant "the enjoyment of watching it presented the way it was originally meant to be shown — that is, full-sized on a theatrical screen and intact from start to finish, not shriveled and chopped up to suit the purposes of commercial TV."

Scouts Hold Annual Camp

We are not sure that the weatherman is a Scout but we are sure to believe he likes to do a good turn. For instance, he favored the 2nd Didsbury Troop Boy Scouts with ideal weather on their recent winter camp.

This winter 12 members of the troop camped in the Miniwanka area, six miles from Banff. They used one of the camp shelters as a kitchen, enjoying the luxury of camp tables, benches and stoves. On the second night one of the members found the switch box to the electrical system. From then on they even had electric light in their shelter and could play games in the camping area by artificial light. Some of the boys vowed that next year they'd be back with more blankets and pop-up tents. Such amenities were a far cry from their previous winter camping conveniences and the novelty added to the fun of the camp.

Of course, swimming in the Hot Springs was a daily feature and added to the other home-like touches.

As usual the boys regaled themselves with the results of good camp cooking, the highlight being some excellent roasts of venison,

with all the trimmings.

The camp afforded most of the boys opportunities to pass certain tests in camp craft, which helped them to qualify for badges such as winter campers, camp cook, etc., and it gave to them all a wholesome experience in fending for themselves in the great out-of-doors.

The camp was held from Dec. 26 to 28th. Those attending included, assistant Scout Masters Glen Eby and Virgil Stauffer, Scouts Gordon Cable, Arnold Stauffer, Lloyd Eby, Gordon Reimer, Brian Shantz, Ted Veenstra, Dennis Brado, Brian Will and Wayne Hieuka. Scoutmaster Peter Waldin was in charge.

The troop would like to thank Mr. Eby for the use of his truck and Ray Stauffer for his assistance in driving the boys home.

Just For The Record . . .

The holiday season is over and we hope you didn't have as much trouble getting back into the saddle as we did. The New Year's resolutions have held tight so far but we're being watched closely in case of a mis-step; you do the same and we'll all enjoy one of the best years ever.

Just For The Record . . .

Residents of the town and district regret to hear of the departure of George Law from his stand behind the "pill fountain" at the local drug store. He'll be sorely missed by all of us — his hand behind the scenes guided many of the major projects in our town; his acts of kindness and help in times of need can not be counted; he can't even count them himself. Good luck, George, wherever you go!

Just For The Record . . .

Everyone hereabouts knows that the weather-man has been treating his fair weather friends with smiling eyes. But the hockey players and their fans, the curling fraternity and the wee ones with new toboggans and skates, have a sort of scowl on their faces. No ice, no snow, no play. Whose for a round of golf?

Something Borrowed . . .

There is no charge for publication of news, but space in the news columns cannot be purchased. However, people who have something they wish to have publicized are referred to the advertising department. On the other hand, the opinions of this newspaper and its policy are expressed on the editorial page. It would be unnatural if we were always right in our opinions or if our point of view was acceptable to everyone . . . but our columns are always open to those who wish to write and disagree with us. We do, in fact, welcome opposing opinions since there will always be differences of opinions and it makes for a healthier situation when members of the community are fully informed of both sides of a controversial issue.

And A Friendly Nod To . . .

To the lad who penned the following phrase: "Many receive advice — only the wise profit by it."

Forgive Me When I Whine

Today upon a bus, I saw
A lovely maid with golden hair;
I envied her — she seemed so gay.
And Oh, I wished I were so fair,
When suddenly she rose to leave,
I saw her hobble down the aisle;
She had one foot and wore
a crutch.
But as she passed, a smile.
Oh, God, forgive me when
I whine;
I have two feet, the world
is mine.
And when I stopped to buy
some sweets,
The lad who served me had
such charm.
He seemed to radiate good
cheer.
His manner was so kind
and warm.
I said, "It's nice to deal
with you.
Such courtesy I seldom find."
He turned and said, "Oh,
thank you, sir!"
And then I saw that he
was blind.
Oh, God, forgive me when
I whine;
I have two eyes, the world
is mine.

Then when walking down
the street
I saw a child with eyes
of blue.
He stood and watched the
others play;
It seemed he knew not what
to do.
I stopped a moment, then
I said:
"Why don't you join the others,
dear?"
He looked ahead without
a word.
And then I knew, he could
not hear.
Oh, God, forgive me when
I whine;
I have two ears,
the world is mine.
With feet to take me where
I go.
With eyes to see the
sunset's glow.

WHEAT EXPORT SALES MAY
REACH 300,000,000 BUSHELS

The federal government expects
to increase its sale of wheat to
world markets to 300,000,000 bush-
els during the present crop year.
Agriculture Minister Douglas Har-
kness said last week.

Mr. Harkness was correcting a
story in a recent edition of The
Calgary Herald in which he was
erroneously quoted as saying the
government expects to increase
sales of wheat by 300,000,000 bush-
els.

Mr. Harkness said the 300,000,000
bushel goal would be an increase of
40,000,000 over 1957.

Construction

Course Outlined

"Build Your Own Home"

A series of articles have appeared
in these columns lately in respect
to veterans building their own
homes with assistance under the
Veterans' Land Act. Mention has
been made of Construction Courses
for the veterans, to assist them to
become their own contractors.

House construction is somewhat
like working with bees — the ex-
perienced operator has little or no
trouble, whereas the amateur might
get badly stung. It is for this reason
V.L.A. provides construction
courses, so the inexperienced veter-
an contractors can be trained to
avoid any pitfalls or costly mistakes,
often encountered in the
building trade.

These courses do not attempt to
train the veterans to be carpenters,
joiners or cabinet makers, but
rather to train them how to competently
manage a house building
contract, become familiar with the
terms of their Contract and Col-
lateral Agreements and the require-
ments under their contract with the
Veterans' Land Act. To those who
are interested, the course is packed
with a volume of essential knowl-
edge designed to assist them not
only to build a good home, but to
save money in doing so.

There are the legal requirements
which a veteran should understand,
how title to his lot must be trans-
ferred and registered in the name
of the Director; the obtaining of
a building permit, arranging for
insurance on the house so that it
is fully protected at all times, cov-
erage for workmen under the Work-
men's Compensation Act. These
matters are all carefully gone into
and explained to the veterans as
well as the terms of the contract
and the method by which progress
payments are made as the work
proceeds. The veteran also has to
sign a Collateral Agreement, which
document contains all the condi-
tions the veteran undertakes to ful-
fill as a contractor, including the
signing of a mortgage in favour of
C. M. H. C. upon completion of the
contract.

A competent Construction Super-
visor thoroughly explains the
General Standards, Plans, Specifi-
fications and C. M. H. C. Building
Standards. The standards set the
minimum standard that can be used
in house construction in respect to
the type and size of all material
and equipment. To ensure the veter-
an contractors are familiar with
these standards, the Supervisor
goes through the book of stand-
ards, the Supervisor goes through
the book of standards, item by item,
explaining the purpose and use of
each item in its relation to the rest
of the house. The same principle
applies to a house as to a chain,
which is no stronger than its weak-
est link. A house is no better than
its weakest member — it must have
a good foundation, be well braced
and have a solidly constructed
frame. A good outside finish is of
little value unless the whole house
is structurally sound.

Veteran Contractors seldom are
qualified to do all or any of the
work of the sub-trades, such as
plumbing, heating, plastering and
electrical work and so it is usual to
sub-let this type of work. During
the course, the veterans are taught
how to deal with sub-contractors,
the best type of equipment to instal
in compliance with C. M. H. C.
Standards and how to buy wisely.

Laying out of the grounds, the
position of the house, the distance
from the sidewalk of the property, con-
necting up with the utilities and
services and how to lay out the
footings so the building is square
with the lot; all these important
items and many other details so
essential for good construction, are
taught to the veterans. The suc-
cessful contractor is one who is a
good business manager, know how
and where to buy his materials and
hire competent labour, and can plan
his work to good advantage. Knowl-
ing all these things enables the veter-
an to build structurally sound
homes at lower costs than obtain-
able in the open market. It is an
interesting course from beginning
to end, profusely illustrated by
colour slides, and runs from ten to
twelve consecutive evenings of from
two to three hours.

LEAGUES ENJOY CAROLING AND CHRISTMAS PARTY

The Wednesday before Christmas
several Leagues went caroling to
shut-ins and elderly people. After
using their vocal cords, all gathered
in the church basement to enjoy
hot chocolate and cake.

On Friday, December 27, the
Leagues and friends met in the
church basement for the Christmas
party. The committee in charge
kept all busy with games, relays
and contests. The happy group
then sat down to enjoy hamburgers
and all the trimmings.

The evening closed with a vesper
service in the church proper with
the only lighting being that from
six Christmas trees. The pastor
and several Leagues gave the de-
votion, which ended with The
Lord's Prayer.

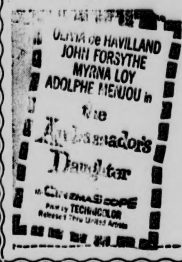

Instead of exchanging gifts the
Leagues donated to the church's
Board of World Relief.

Take Time To Save Time

It's amazing how much more you'll accomplish if you plan in advance the work to be done each day, week, month and season. When making your plan — check just to see what can be eliminated, shifted to another time or done by another person — distribute difficult tasks throughout the week — eliminate the hurry and confusion of big events or busy times, by advance preparation — leave flexibility in plans to allow for the unexpected (which is sure to happen) — plan some time for rest, relaxation for yourself and with the family.

Improve Your Working Conditions:

You can do the same job in less time and with less energy if you: Arrange and store equipment where it is first used. Use carts or a table on wheels to move equipment and supplies. Have good lighting and ventilation.

Develop Good Working Methods:

Be motion conscious — Use both hands when possible. Use a tray or rearrange your storage of supplies to save steps.

Use the Best Tool For the Job

Use hand brooms and brushes to eliminate some bending and reaching. Use vacuum cleaner for dusting. Keep tools in good repair. Eliminate The Unnecessary: Drain dishes dry; fold sheets and towels without ironing; place mats instead of large table cloths; put away "dust catchers"; bake cookies on sheets and squares instead of using round cutters. Work without strain:

Sit at work when possible. Maintain good posture. Place work at comfortable level. When lifting or bending — bend knees and hips instead of bending your back.

Home visits form an integral part of the nursing service where persons are unable to attend clinics or make office calls. All nursing services, apart from emer-

gency, require Mrs. Faulkner to be in many types of nursing activities. Here she checks weight of an eight-month-old boy after examining his throat for swollen tonsils. The throat was fine and so was the weight, nearly 20 lbs. To provide adequate health care

THE LOCAL NEWSPAPER MAINTAINS ITS INFLUENCE

- How often a successful executive, far from his small-town birthplace — maintains his contacts through regular receipt of his weekly newspaper.
- There is nothing quite like a small town weekly for neighborly news and intimate contacts.
- People in the advertising business talk about selected audiences — sharply focused circulation. They have learned from experience that when a publication is specially edited to appeal to the specific interests of a smaller group of people, its opportunities to make sales are multiplied many times over.
- The weekly newspaper is that kind of publication. Whether its circulation is a few hundred or a few thousand, it represents effective circulation.
- Gather the towns-people and farm folk around you when you advertise. Surround yourself with friendly neighbors — deliver your advertising message through your local weekly newspaper.

58.2 Per Cent of Canada's population live in places of 10,000 or less. THESE ARE WEEKLY NEWSPAPER MARKETS.

M.V.B.C. NEWS

(From Our Own Correspondent)

The holidays are in the past, the Christmas trees are in the incinerators, and all the gay and lovely decorations are repacking in boxes waiting for next Christmas, and to each one the College extends greetings for a happy and prosperous New Year.

Mrs. Kagey spent her holidays at home in Bellingham; Mrs. Suder and Lois were guests of the Taylors, along with Mr. Carpenter; Miss Eby entertained a niece and her family, Mr. and Mrs. Elgin Hallman of Red Deer, and the Waldins were at home in Calgary; Arthur Eby's had a family gathering of those who were in Didsbury on both sides of the family, and had their dinner in the college dining room.

The Christmas school party was a great success again this year. Mervin Traub, the convener of the social committee was in charge and after games, Mr. Waldin presented his annual Christmas play as given by the speech class. Santa Claus made his appearance at the right time and one can tell that he lives in the north by his Scandavian accent. The exchange of gifts was a time of fun and frolic. The next day almost all of the students left for their homes, but we note that some of them became a bit home sick for the campus and returned by Saturday night of the following week. Classes convened December 30th this year.

This is the week for exams. When you read this column, students in rooms, the library, class rooms, etc., will be studying intently trying to capture all the information for the next exam. All play and no work would make them dull of understanding, so this week will get each one back in good order for the duties of life in the future. We wish each one success, and reasonably high grades, not all can get a high grade, but we remind them that character and all it implies is worth more than merely high grades.

Rev. Fredlund of Three Hills, and connected with the Canadian Sunday School Mission, was a guest speaker in the college on Monday and addressed the class in religious education in the afternoon.

Mr. and Mrs. Arthur Eby went to Acadia Valley to attend the 25th anniversary of Mr. and Mrs. Henry Neilson.

Mrs. Suder has started her winter tours on behalf of the Women's Missionary Society, of which she is director. Last Sunday she was in Edmonton. With her were Miss Joyce Burkholder of Africa and Miss Iris Schlitt of India. Both of these young ladies are graduates of the college and have their degrees in nursing as well. They will be visiting Didsbury soon.

Mr. Waldin's speech class presented their Christmas play in Calgary on Sunday evening in the Parkdale U.M. church, and also in Monticourt. Mr. Waldin is to be commended for the excellent work he does in the writing and presenting of these original plays.

President and Mrs. Taylor and family went to Calgary on Saturday to attend a family dinner at the home of his sister, Mrs. Paul Lancaster. All but one member of the Taylor family were present.

Mrs. M. A. Finlay, mother of Mrs. Taylor, and Miss Lee, were guests of the Taylors for Christmas dinner. These ladies spent several days on the campus and we enjoyed their company.

Perhaps other things could be said, but for this time we shall just say "Happy New Year" and wait until next week for further of our ramblings.

WEST NOTES

(From Our Own Correspondent)

Mr. and Mrs. J. Bagshaw entertained their family, Mr. and Mrs. C. Rhinehart and their family, Mr. and Mrs. Patchell of Water Valley and Mrs. Libbs of Calgary on New Year's Day.

Those visiting with Mr. and Mrs. Alfred Cowitz on New Year's Day included Mr. and Mrs. Edwood Scott and family, Mr. and Mrs. A. L. Hoeg and Mr. and Mrs. R. Neufeldt and family of Calgary.

Mrs. H. Hoesgood and Lillian were Calgary visitors for a couple of days last week.

Mr. and Mrs. L. Krebs entertained the Krebs family on New Year's Day. In the evening the house caught on fire, starting in the attic. An alarm was sent out and soon neighbors gathered and the fire was extinguished, but not before considerable damage was done, mostly by water.

Mr. and Mrs. C. Rawleigh visited with Mr. and Mrs. Arnold Hoeg last week for a few days.

Mrs. O. Krebs left last Thursday to spend a week in Edmonton.

Mr. and Mrs. A. L. Hoeg spent Friday evening with Mr. and Mrs. J. Bagshaw.

Mrs. O. Befus and Donnie visited at Yorktown, Sask., during the holiday season.

SPRINGSIDE NOTES

(From Our Own Correspondent)

There will be a military whist party at Springside on January 10. Everyone welcome.

Billy Taylor of Acme spent the Christmas holidays with his grandparents, Mr. and Mrs. Bill Collinge. Mr. and Mrs. Bob Collinge spent a few days at the New Year with the latter's parents in Medicine Hat.

The Springside Ladies' Group met at the home of Mrs. Lloyd Kershaw on January 2nd, when new officers were elected. There were six members and three visitors present. The contest directed by Mrs. Verne Wrigglesworth was won by Mrs. Bill Collinge; hostess prize was won by Mrs. Vern Wrigglesworth.

New Year's Resolutions

Some New Year's resolutions

we should make.

For the year that reads

Nineteen-Fifty-Eight:

Resolve that to all our

fellow men, be kind,

And help the lame, the sick,

and the blind.

Let's resolve to give the hungry

food to eat.

To use up our surplus of

grain and meat:

And give the poor and weak

A helping hand.

Both here, and in the foreign

lands.

This coming year, let's all

take heed.

And obey the laws, to reduce

our speed:

While driving the family car

or truck.

To use good judgment, and

not trust to luck.

Let's use a smile, instead of

a frown.

To brighten the ones who are

feeling down;

And use a kind word, instead

of a sneer.

To bring to all a word

of good cheer.

What the New Year will bring

we cannot foresee;

The Russians might launch

their Sputnik No. 3;

Or perhaps they will make a

trip to the moon.

To see if they can find

some more room.

Let us resolve to set aside

one day each week.

And go to church for

spiritual help to seek;

To prepare ourselves for

the life to come.

When our time down here

on earth is done.

So to the Editor, the staff and

the readers of The Pioneer,

May I wish you all

"A Happy New Year";

Let's hope it will bring to the

world a new lease

of friendship, happiness, and

Everlasting Peace.

Westcott News

(From Our Own Correspondent)

A very prosperous and happy New Year to our editor and staff and all the readers everywhere.

Christmas and New Year's have come and gone, but we still have the memories, and among them are a few which we think deserving of mention again. In other words a few bouquets should be handed out: one to our storekeeper and his good wife, Mr. and Mrs. Ed Willow, who again decorated the place; the string of colored lights outside across the road which could be seen at a great distance certainly gave the approaching traffic a lovely sight and such a warm welcome to their place of business. Another bouquet to our teacher, Mrs. Allan Konechny, who with her pupils gave a very good Christmas concert. Sure, she does it every year, but every year it's better. We won't forget Santa, he was there too handing out the gifts and candy bags. Thank you to all who helped, these seem such trifling things we take so much for granted.

With the June in January weather there's not been too much activity at the Westcott rink but it's ready and you and your friends are invited to patronize the place.

We noted many old faces, along with new ones, visiting in our neighborhood over the holidays. This correspondent wishes she could relate all your happenings but can't unless you give her the details, names, etc. Phone me at R.903.

Mr. and Mrs. Lyle R. Johnson and family spent the holidays at the Herbert Goetjen home. On Christmas Day they all were visitors at the Leonard Papke home at Elkton. Also present were Mrs. A. Papke, Mrs. Edna Wouters and son of Calgary, Mr. Fred Porath of Calgary, Mr. Nels Porath of Edmonton, besides other members of the family of Mrs. A. Papke, which numbered about 40.

Mrs. Ken Card and boys spent Christmas Day with her husband in Calgary and later had dinner with friends there.

Mr. and Mrs. Dave Gilchrist of Edmonton spent the holidays with the Jack Robertsons and other relatives.

Mr. and Mrs. Bud Hayball and family spent Christmas at Leslieville with Mr. and Mrs. Ernest Hayball.

New Year's visitors to the Bud Hayball home were Mr. and Mrs. Jack Prendergast and Fred of Red Deer, Mr. and Mrs. O. Moore, Gladys and Ted, of Ridgewood, Mr. and Mrs. Don Ostrom and family and Mr. and Mrs. Norman Reno and Leslie, all of Calgary.

Best wishes to Mr. Joe White, who is very ill and is now taking treatment in a Calgary hospital.

We had to say to Mr. Gordon Ford is much improved after his stay in Didsbury hospital.

We understand Mr. Henry Wilhisen is up and about again after being sick during the holidays.
